

It will be difficult to be brief, but I will try. This comment is in reference to MB Docket No. 04-233, low power FM. If the FCC chooses to allow this type of programming to replace other FM services, this could mean the loss of K-LOVE Christian radio. Please let me say that this would be a huge mistake for America. K-Love listeners are located all over the United States. It is a way for Christians and non-Christians to hear inspirational songs and messages all day long. Did you know that people who have contemplated suicide have listened to K-Love and sought counseling from one of its five full-time pastors, and then "lived" as a result? This radio station, with God's help, actually saves lives. Please do not let this Low Power FM cause us to lose the signal provided to K-Love. This would affect so many communities throughout the United States. IT IS A POSITIVE RADIO INFLUENCE FOR OUR FAMILIES THAT SHOULD NEVER BE REPLACED IN ANY COMMUNITY. Thank you for listening to my comments. I am a dedicated K-Love listener. It has changed my life and will change yours too.
